CAREER OBJECTIVE

Motivated and detail-oriented B.Tech graduate in Computer Science (Artificial Intelligence) seeking a Software Developer role where I can apply my skills in Python and Web Development to design and develop efficient, scalable, and reliable software solutions. Eager to contribute to innovative projects, solve real-world challenges, and continuously enhance my technical expertise while supporting the organization's growth and success.

EDUCATION

- B.Tech in CSE (AI) | JECRC Foundation, Jaipur | 8.20 CGPA | 2023 - 2026
- Diploma in CSE | Govt. R.C Khaitan Polytechnic College, Jaipur | 9.00 CGPA | 2020 - 2023

SKILLS

- **Programming Languages:** C++ | Python | SQL
- **Web Development:** HTML | CSS | JavaScript | Flask
- **Developer Tools:** VS Code | Git | GitHub
- **Core Computer Science:** Data Structures & Algorithms | DBMS | Operating System | Computer Networks
- **Soft Skills:** Problem Solving | Adaptability | Teamwork | Learning Agility

PROJECTS UNDERTAKEN

X-Ray Vision: AI Based Disease Detection 2026

- **Technologies Used:** Python | TensorFlow | Keras | Flask | OpenCV | DenseNet121
- **Tools Used:** VS Code | ReportLab | TensorFlow | OpenCV | GitHub
- **Key Learning:** Gained hands-on experience in Deep Learning and medical image analysis by developing a CNN-based disease detection system using DenseNet121. Learned image preprocessing, model training, and explainable AI techniques like Grad-CAM for prediction visualization.

Sentiment Analysis 2025

- **Technologies Used:** Python | Flask | Natural Language Toolkit (NLTK)
- **Tools Used:** VS Code | Python | GitHub
- **Key Learning**: Sentiment analysis helps understand opinions and emotions in text using NLP and machine learning. This project creates a robust system to provide actionable insights and improve decision-making.

INTERNSHIP

- Jr. Python Developer | Relicons Technologies Pvt. Ltd. | Jul 2025 – Aug 2025

  Key Contribution: Developed and optimized Python scripts to automate processes, enhance application performance, and support the development of user-friendly features.

- Python (Fundamentals of ML/AI) | Upflairs Pvt. Ltd. | Aug 2024

  Key Contribution: Gained foundational understanding of Machine Learning and AI, covering concepts like supervised/unsupervised learning and model evaluation.

ACHIEVEMENTS & EXTRACURRICULAR

- Participated in National Hackathon: Smart India Hackathon (SIH).
- Coordinator Head-Renaissance, JECRC.
